

## Order of the Arc / houses of the archangels / code of the Arc

order/council of 144,000 angelic families;  
order of archangels/archtypical energies of a angelic families;  
pillar of gateway; elaborate series of energetic codes;  
the entryway or the portal to come to Earth;

< Creator 8 > There were many entities who gathered. This is the forming of what you would now call councils or energy families, celestial families (Order of the Arc). They met, and at the highest levels of these families, there was an agreement to descend, to lower the vibration of certain entities, certain angels, representing both sides (light and dark) of duality. In this lower vibrational form these entities would take on what you now know as biology. They would take on mass. Part of the reason for this was so that creation would not occur so fast as it had before. It would be slowed down. There would be opportunities to live through experience. There would be opportunities to assess and evaluate and to help balance. When you were angels in your newly forming universe, you created almost as quickly as thought. At times this got out of hand. At times, dear friends, you did not know which side (light or dark)

you were on! You did not know how to properly assess your own energy and things seemed out of control.

< Ascension 2QA > As we have said, there was an impasse in creation, in this creation, where all things, in a sense, were energetically stuck. They could not go forth. They could not move. Creation, as we and you know it, stopped. It stopped because there was something that needed to be resolved. This is what created the Order of the Arc - the archangels - responsible for projecting their energy into the future to find a solution to this impasse of energy, so that all of the second creation could move forth. What you are doing, as grandiose as it may seem, but as challenging and difficult as it is... by the very work that you are doing as Lightworkers, as human beings is to help resolve this impasse. It is to help things move forward. IT IS NOT ABOUT YOU ANYMORE. You are working to find resolution to this impasse so that creation may move forth. We know that the solution is already here. We have spoken of this cryptically in some of the previous channels and discussions. And we can tell you that things are moving forth, and you will see it in your cosmic events. You will see it as your people look into the stars, and they begin to see, not what has already been written about, but yet another new phenomenon. Understand when this is chronicled and publicized

that this will be an indication that this impasse of energy has been resolved, and that things may move forward. So, we deviate somewhat from the question, but it allows us the time to talk to you and to explain more of the great honor we have for you. You see yourselves as humans who have to drive through traffic to a job that you do not so much enjoy and go through the difficulties. We see you as those who even the archangels are counting on and relying on.

< Ascension 2QA > The symbols that are being written on your land in particular areas (crop circles) are the acknowledgement from the archangels of the highest realms that the work that you are doing on Earth is freeing up the energy of the impasse. As the impasse is freed up, it is responding back to you in thanks. It is giving you a type of coded message. It is a "thank you" card from the other side. To appreciate and to receive what benefits are being written upon your land, simply look at it. You do not even need to be there. You do not even need to know that it is there, for it is coming to you as new energy, as thankful energy. It is not the aliens trying to tell you what to do. It is not in response to a coded message that was sent out in 1974. It is a "thank you" from heaven for the work that you have done. It is, in a sense, a type of greeting card from the archangels, from the Order of the Arc, a "thank you" card going back to Earth.

< Ascension 3 > Our journey together began at the "Wall of Fire." Our journey has taken us many, many places, through dimensions that we could not possibly describe on this day. Our journey together as friends, as angels, as gods has taken us into the very creation of this universe. Our journeys together as friends brought us to the point of the creation of the Order of the Arc. You, and I, Tobias, were there together when that structure, that organization, was created. We watched how energies that were in duality, that were at an impasse, and at times even battling each other... we watched as those energies were collected together for the good of all, and this created the Order of the Arc, the archangels.

< Ascension 3 > Everyone of you can claim that you are part of this group (Order of the Arc). It is you, old friends, who moved from this time of the Order of the Arc and came to Earth, You took on human form and then experienced many, many lessons. We were old friends, you and I, in the days of Alt. We were old friends together in the times that followed. We were old friends in the creation of the new Earth, the new world.

< Ascension 3QA > Why? ... is such a good question, and it is about your journey. It is about your search. It is about your ascension. It is the question that has been asked by entities ever since we left Home. It is about your journey on Earth. Ever since you left

Home there has been one basic thing - the search for God, the search for God. When you were in the void and creating this Second Creation, the real question was about where to find God, how to get back Home. As we all matured, we understood it was not about getting back Home. It was about creating something new. But, the search for God continued.

The Order of the Arc was created, it was to help define a very imbalanced energy (duality), an energy that was searching for God. It was an answer to the question "why." It was about a venue and an experience that would enable you, and then ultimately us, to once again know God, but a different relationship than you had with the King and the Queen when you were Jack. The relationship now comes from within you. The relationship is yours to hold personally. It is about integrating your divinity. Why? If you return to the story of Jack, you will recall that we chose our words very carefully. It was said that Jack was the prince, the son of the King and the Queen. One day he would inherit the throne. But, he wanted one last journey. Why? It was to understand how to bring the energy of Home, how to bring the energy of God, how to bring the divineness into you directly, into your experience and your being. Jack did not have ownership of this when he was in the Kingdom. In order to be a true creator, Jack needed to discover this on his own.

You have been searching for God ever since. You are beginning to understand the dynamics of this and how this works. It is difficult. It does not come so easy. Why? It is the fulfillment of a circle that started the moment Spirit contemplated Self and began a whole dynamic of new creation, of duality, and of experience. It is the completion of Spirit's quest to know Self, to know of expression by living through experience.

< Ascension 3QA > There is the energy of Yeshua, who you could say was the being or the entity, an old friend who walked the Earth. This was his name and the energy imprint identified with it. Yeshua is part of a spiritual family. Now, human words sometimes are quite limiting. But, he is part of a spiritual family. You would say that it is the family of Sananda (Order of Sananda). Now, within the family of Sananda, there are many beings and many entities who carry this energy. Even on your Earth you have many Lightworkers, you have many Shaumbra who channeling Sananda. Does that mean they are channeling Yeshua? Not necessarily. Sananda is a broad family energy. It would be as if you had the name Smith. There is a broad family associated with this, but your name is Jim. This is the individual. So, there is the family of Sananda that is indeed part of the Order of the Arc. It is - how to say... it has somewhat different attributes than the regular beings

you know as archangels, but Sananda is a very unique energy within the Order of the Arc. Its members, its family members, tend to come to the Earth at certain times of major changes and major leaps of consciousness.

< Ascension 3QA > I, Tobias, am one who walked the Earth thousands of years ago. I am one who is an old friend with you, back to the times of Atlantis. I have also walked with you in non-physical form, even in these past several thousand years.

But there is a grander, broader Tobias family energy (Order of To-Bi-Wah). I am not just a dead human, or as Cauldre calls me, the "old Jew." (audience laughter) There is a much broader family energy. It is in direct lineage to the Order of the Arc. The Tobias family energy has been written recently by others as TO - BI - US. This is not so much an accurate interpretation. It energetically would sound - these are very difficult to translate - it would energetically sound like "To-ah-mus." But, you call it the family of "To-bee-us." This is a very broad, very large, very dynamic spiritual energy that I, Tobias, am part of, and you are part of. It is different than just the Crimson Council, for that is a group within this energy of "To-bee-us."

This group, this family that we are from, comes to Earth at specific times. We work closely with the Sananda energy, but we come in as the workers of change energy. We come in at times when there has

been a major consciousness shift. This is the time to send in the seasoned energy workers. You are the ones who know how to take the change in consciousness - to take this etheric energy - and to help implant it, to help it move forward, to help it materialize.

< Ascension 5 > Do you know, when we sat together with you in the Order of the Arc, creating the very reality of Earth and your dimensions around it... do you know, it was designed as a playground? It was designed for you to go and play. And, along the way perhaps, you have forgotten who you are, who you were, and you have forgotten how to play.

< Ascension 6 > He is the one who has been prodding you here as I, Tobias, have been chatting away. He is the one who has been disrupting the energies here to work with you on different levels. He is a grand one. If there was a conference table in the Order of the Arc, this wonderful being would sit at the front, right-hand chair. He would sit next to the head chair. And, you wonder who sits in the head chair?? It has been vacant for a while, but it is you! You have been busy doing other things. You have not been able to preside at the spot that you indeed own.

< Ascension 6 > For those who are wondering, Metatron is not a single entity. It is a composition of energies. It is not a male or a female. Metatron is a collection of energies from the Order of the Arc, representing all of the archangels AND you. If you

would put this together as a composite, this is Metatron. You will see Metatron with your new eyes, or in your psychic eye. You will see Metatron at times, taking on a human-like quality - radiant and glowing - but human-like. Understand this is your way of perceiving Metatron, but it is not a single entity.

< Ascension 8 > When it came time for what we have called the Order of the Arc, when the Earth was created, you came to Earth once again, carrying these energies of duality with you. You had the energy of duality, the polarity of the "plus" and the "minus," the "black" and the "white," the "high" and the "low." And, you also had the veil, the veil, which brought you to a new level of experience. Now, not only had you forgotten the energy of Home, but you had also forgotten the energy of home away from Home. It provided the opportunity to come to this grand place to take on body, to slow things down so that you could make conscious decision, so you could make conscious choice - all this a way of helping you to understand who you truly are.

< Ascension 9 > We said earlier that when you left Home, the Kingdom, a finite amount of energy came with you. No new energy has ever been created outside of the First Circle. You have just changed and transformed the existing energy base. And do you remember when we have spoken to you about all things in the Second Circle coming to an impasse?

The energies of the universe came to a standstill at one point. Duality could no longer re-express itself. It was the "star wars" period where energy could move forth no more. It came to an impasse. It stopped. That is when the Order of the Arc was created to find a solution to the impasse. Earth was created to find solution to the energetic impasse that occurred. When you gaze into the stars at night, you are looking at your past. When your scientists use the new, sophisticated telescopes to probe the universe, they are also looking at your past. They are looking at what you left behind, at what you created. That is what it is. < Ascension 10 > Metatron IS you! Metatron is "your voice in Spirit". Metatron held a balance of energy on the other side of the veil. Metatron held the balance of energy in a very sacred temple within the Order of the Arc, a temple that was secure, and safe, and very sacred. Very few were allowed into this temple. That is where part of your own divine energy has been watched over by Metatron. That is where part of you that is so divine, and so pure - the purity of love - has been waiting, watched over by your voice in Spirit, Metatron, until the time was appropriate. Metatron has walked with all of us throughout this Ascension Series.

< Ascension 10 > We will tell you a little bit about Archangel Michael. He asks you to simply open up to his vibration as we talk. Michael, in a sense, carries a

responsibility for each of you. Michael is one you work with very closely at many different levels. When the Order of the Arc was formed in an effort to bring about the New Energy of the universe, it was Michael who worked with you, helping to train you, helping to prepare you for your journey to Earth that began so long ago.

< Ascension 10 > Michael has never taken human form. He is an architect who, along with you, helped create the templates of Earth and human biology and human consciousness. Michael, in a sense, was your drill sergeant before you left the Order of the Arc to come to Earth. Michael was the one who gave each of you a Sword of Truth, a symbol of your own journey. The sword is part of your own consciousness and your own biology, given to you by Michael before you embarked on your journey to find your own truth. The sword was given to you before you left for Earth. It has been part of who you have been ever since.

< Ascension 10 > Those who teach your Bible and scriptures tell the story of Michael and how he fought Satan, or Lucifer in the giant battle in the heavens. Michael threw Satan out of heaven. Dear friends, the story is somewhat mixed up, because in the story, the one that is Satan is really you! (audience laughter and Tobias chuckling) But, it made a better story to present it as the devil. It was YOU that left the Order of the Arc, or what would be called "heaven." It was

Michael who trained you. It was Michael who gave you the sword and sent you on your way. You were not thrown out of anywhere. You chose to leave this "heaven" and come to Earth. You agreed to it in advance.

< Ascension 10 > The real story is not about a big battle where Satan was thrown out of heaven. It was about your own departure from the Order of the Arc to come to Earth. It was about your journey to find your truth, dear friends. Your truth is your divinity. You had to find it on your own. You had to find it with the elements of duality, and furthermore, with the element of the veil - two very strong forces that hid you from your past, hid you from yourself, and hid you from us for so long. You had to go out on this journey to Earth in a very - how to say - neutral environment to discover your divinity. The Sword of Truth represents your own journey.

< DivineHuman 7 > St. Germain had been away for quite a while, helping the angels on our side to develop and birth this place we call the New Earth. He has been out of contact, busy with this project. Now with the alignment of the grids, he now brings his energy to both places, this physical Earth that you inhabit and the New Earth. He is like a conduit between the two. St. Germain works directly with the order of Archangel Gabriel. We know him here as an angel who can connect in human form. We know him

here by the name of Zebael... Zebael. We do not call him St. Germain. That is a human name that you have for him.

< DivineHuman 7 > There is something called the Order of the Arc, the Order of the Archangels, that was created as a unified consensus of all energies and all angels, what you would consider light and dark. All of them created this Order of the Arc to move to the next level of understanding. You see, when the universe came to a standstill, a long, long time ago, all energy slowed down, and it came to a standstill. We needed to find resolutions, for no one or nothing was being served by having all energy come to a gridlock.

So, we, all of us, the good guys, the bad guys, we created this thing called the Order of the Arc. There are archetypal energies within this. There are energies of Gabriel, and Raphael, Amael, and all of the others in the Order of the Arc.

But, they are not singular archangel beings. They represent energies. Yes, sometimes you may will see or feel the energies of Raphael. But, it is not a single angel. It is a unified energy. It is part of you. It is part of you.

< DivineHuman 10 > This is a point of separation, the fulfillment of a journey that began when you left the Kingdom, when you left Home. It was a potential to

leave Home to understand your identity as the Prince and the Princess of creation. It was a potential to know that you too had Creator energies, and that you could create something called the "cosmos." You could create something called the Order of the Arc, where the energies of the archangels reside. It was fulfillment to know you could come to a place of Earth as the launching pad for New Energy.

< DivineHuman 11 > Gaia - Mother Earth as some of you call her - is an angel. She is a singular, angelic energy. This angel, Gaia, has been responsible for maintaining the flow of life force energy on Earth. She came here when the earliest of the angels came to visit Earth, to seed Earth with the new energies that would eventually bring life to this rock. Gaia went through so much preparation prior to coming here. She has a seat of honor in the Order of the Arc (the Archangels). Her seat has been vacant for so very long while she has been visiting Earth. She is the energy of the goddess of birth and of life.

< DivineHuman 11 > She is changing in response to your changing consciousness, slowly withdrawing her energies, slowly going back to the Order of the Arc so you can take those energies within yourself. As you do, you will come to a whole new type of understanding - one we will ask you to feel here in just a moment - of how rejuvenation of biology truly happens, how the cleansing and releasing truly

happens. Gaia asks you to feel this capability within her now for a moment, the ability to clear and to renew, to birth over and over again, where no energy is ever truly dead. It is just cleansed. You see, you will be taking in these energies. You will be the ones who are providing a life force energy and the balance that goes with it.

< NewEnergy 3 > When the Order of the Arc created this place called Earth, this was a method to help come to a new understanding of the energies in all parts of the cosmos. Earth was created as a neutral place where you could re-experience things from before - "before" meaning before you were ever human, before you were ever on this planet. On Earth you could walk through Old experiences in a very slowed down fashion... you could walk in matter in these human bodies... you could forget who you were and where you came from. Earth was designed this way on purpose so you could re-experience things that happened to you eons of time ago, so that you could come to points of choice and points of understanding, so that the past could be healed. The future IS the past healed.

< NewEnergy 4 > What we have really been saying energetically underneath this is about the whole message of your journey... the whole reason why you are here on Earth... why you left the Order of the Arc and came to Earth. It comes to you, dear friends.

Home comes to you. You don't go Home, as we said so very long ago. You don't go Home from here. You don't die and go back into this eternal oneness. Instead, Home comes to you. It is the fulfillment of the journey. Home comes to you. It comes to you. Everything that you could possibly need... or want... or desire... or create... it comes to you. And, along with it comes Home, comes the New relationship with Spirit, the energy of the King and the Queen.

< NewEnergy 4 > This Order of the Arc, dear friends, the Archangels, are all archetypical energies. How to say, if you want to look at it, in a way, it is like an elaborate code. Allow yourself to feel it here. You could say there are pillars, pillars that represent each Archangel or archetypical code. And, these pillars create - how to say - somewhat of a gateway. The gateway, the energies that make up the Order of the Arc are in an elaborate, elaborate series of energetic codes that you helped to write. You helped to write them because you knew you would need certain energies when you came to Earth.

But, you also knew that you would need to keep other energies out from interfering with the work you are doing. The code, the Order of the Arc, keeps out all of the outside influences, so that you could go to Earth, and you could have your journey without interference from the outside. This keeps out those little men in

flying saucers that you talk about. This keeps out huge, tremendous forces that are out in the cosmos... that are out in the omniverse at the multi-dimensional levels. It is an invisible gateway - a code - that you helped to write. It has never been broken. It can never been broken because the key holders are here, right here. There are no key holders at the gate of the Order of the Arc. Ah... an elaborate code for all of you.

< NewEnergy 4QA > You won't allow yourself to see who you are - the ones who are the grandest, grandest of angels in the universe... the ones who helped create the code of the Order of the Arc... and then put the key in your own pocket and came to Earth... all the time thinking, knowing, while you were creating the code of the Arc... thinking that there were the others that were wanting to come through.

But, when the time came, you knew the journey would be too difficult. You knew that you would, in a sense, sacrifice yourselves and come to Earth. You told the others who truly volunteered, "Allow us to go first. Allow us to blaze the trail. Allow us to go through the difficulties, the true feelings of separation, not only from Spirit, but from spiritual family." All the time this code of the Arc that was being created... others thought they would be first. But, you knew you were going to go first in service to all.

< NewEnergy 4QA > So, what are you doing? You are doing something phenomenal for all of the universe, for Spirit. And, we have to add this point. Dear Shaumbra, you already know this, but all of this is going to happen anyway. It truly is. The ascension, which you are already in... the movement into the New Energy... the New Energy coming into your life... the divine integrating with human... it will all happen. There is no doubt about it.

It's not something you have to manipulate or make happen. It's nothing that you have to do specific ceremonies or practices to make it happen. You don't have to force it. It is such a sacred and blessed thing. It wants to come into your life. Sometimes it has to sit in the background, waiting for you to get through all of your human plans so that the divine can come in. Can you meld the human and the divine plan right now, so that it just happens... because it's going to anyway? It is just a matter of how difficult you make it on yourself.

< NewEnergy 10 > Now, there is some confusion here about Sananda. It is one of the Orders of the Arc. It is one of the pillars of the Order of the Arc. And, it represents the Christ energy. It represents the energy of the Christ seed in germination and in blossoming. Sananda is the Christed energy. It is the energy... it is the Order that is helping you birth the Christ energy

within yourself in your Now moment. So, indeed, it has been very close to you for quite some period of time, very much a part of you and who you are.

< Embodiment 1 > Sixty years ago on this very day - 60 years ago on a day (\* 1944-8-7) that has a 33 number - there was a grand gathering in the greatest chamber of the Order of the Arc. And, at this grand gathering there were representatives from all of the family energies, including those of the Order of To-bi-wah... the Order of Michael... the Order of Sananda... the Order of Raphael... and all of the others gathered on this day. All of you were there in one form or the other. A few of you were already back on Earth in the physical body at a young age indeed. Many of you had not reincarnated yet. And, you attended this grand gathering, this gathering of the Ah-lah-oan, Allatone, as we have said before, meaning creation, meaning "I create, I am."

< Embodiment 7 > There is this thing called the Crimson Council on our side of the veil. You are all participants and members and strong influences in it. This is where we get together during your dream state or during your multi-dimensional travel. The Crimson Council is not one of the pillars of the Order of the Arc. We all come from different places, different families... the family of Michael... and the family of Raphael... the family of To-bi-wah. We converged into this thing called the Crimson Council at this time.

And, as you know, it also consists of the energies of Ohamah, Kuthumi, Tobias. (and of course St.Germain) There are strong influences with Quan Yin and many, many others. You are active participants in this. We are not at a higher level than you. You are simply manifested on Earth right now, and we are not... possibly.

< Embodiment 10 > Words will not even do this justice, Shaumbra, in trying to describe the Third Circle. Let us just say it is the place for full Creators... full Creators without limitation, without restriction... full Creators, what you have always thought of as the capabilities, the abilities of Spirit itself... full Creators, when you're not limited to any dimensions, any type of specific reality. We are going to ask you to feel it from the heart, not from the mind. But, you are at this point now in the evolution of humanity in the fulfillment of the Order of the Arc where it is time now to go beyond while you are still here on the Earth... still here in these human bodies... still going through this beautiful, sometimes frustrating awakening process. You are doing so many things to open the doors for others, to help others free their energies.

< Embodiment 11QA > There are many - how to say - we don't like using the term "portals" or even "vortexes." But, there are many energy pathways that are opening up right now. These are a type of, in a

sense, grids or matrixes that connect the Earth to the New Earth, that connect the Earth as you know it to the Order of the Arc and ultimately to "the field," the source of all energy potential. As the consciousness of humanity is changing, these new pathways are opening up very quickly.

And, that is what you are witnessing, one of these opening up. Through the human eyes you are going to see it in various different ways. Some will see it as a light burst. Some will see it as a large shadowy movement across the sky. But, what it is is an opening that is occurring. It is New Energy pouring into Earth as a potential.

< Clarity 2QA > In a way you could say that you are all aliens (some laughter). You all have come from other places to be here. And, you have all come here through the Order of the Arc. And, you have changed the way you look. You have changed your energy patterns. You have changed everything about you.

So, indeed you do feel, and during the meditation you observed and felt that you are alien. The ten that you felt were all aspects of yourself from non-physical, non-Earth lifetimes that, in a sense, melded together, formed together to literally provide the energy to bring you through the Order of the Arc and to Earth. You are you, but your carrier, your vehicle, was ten of

your non-physical aspects coming together to provide enough energy, enough, yes, enough energy to get here. So, that's what you are seeing within yourself.

It is important to understand though that all of these right now should be unified together. And, you should understand also that you are here for yourself. You are here for yourself. And, that is a reminder for all of Shaumbra. You are not here to save universe. You are not here because any of you - how to say - are in an exclusive group. You are here for yourself.

Now, what you do for yourself has a phenomenal impact on everything and everyone else. But, you have to do it for yourself. If you do it because you are trying to save everyone, you are going to understand some of the burdens of Yeshua carrying savior energy. < Clarity 5QA > You - and all humans - came from the source, the Oneness. You are an expression of Spirit with a very unique identity of your own. You are God also. You are part of that oneness. But, you gave - you God - gave yourself the gift of an individual identity. You are part of the whole, but you are whole unto yourself... you see. It seems like a contradiction or a paradox, but it is not at all. You are part of the fabric or the matrix of everything, interconnected to every other energy. But, yet you, by yourself, are wholeness and complete. You can literally let go of your

connection to everything else and still be whole and complete within yourself. So, that is truly where you came from.

And, as you entered into the realms of Earth, into this reality, you literally came through the house of Metatron. There were 144,000 archetypical portals, or what you call "archangels." And, you came through that of Metatron. It is your spiritual family. It is what you have been connected to in lifetimes as well as when you are not physical here on Earth. But, you are also coming to the point now of releasing that definitive tie that you have to Metatron so that you can begin to embrace all of the other energies of the archangels. You no longer need to define yourself as a Metatron-ic family member. You can become all. It is a true sign of one who is evolving when they can let go of their family connections.

< Clarity 10QA > As consciousness shifts and changes, it brings in symbols all over that are more affirmations than anything else. Tobias has talked before about crop circles. These are symbols basically from the Order of the Arc. They are affirmations of the process and the growth of human consciousness. But it is not about worshiping the symbol itself. It is about understanding that it is coming in to acknowledge you and honor you for the work you are doing. There is no need for external symbols. They

don't hold any power because it is all ... everything you need is contained within you already.

< MNEC2006-T > When the original plans that were created in the Order of the Arc - this is the council of the Archangels, the archetypical energies that were used by angels to come to Earth, the Order of the Arc - there was a beautiful architecture or design to what we would call the bio-psycho nature, the biological and psychological nature of what was going to become humanity. And this design included four aspects. Here we are, back to the number 4 because four is balance. Four is balance. Four is also duality squared. It is New Energy.

< Teacher 1 > You have a hard time understanding that you were chosen by your angelic family to come here to Earth representing one of the 144,000 energies of the Order of the Arc. You have a hard time understanding that you would have given up being royalty for your angelic family, given that up so that you could help to teach them, so they could learn from you. You have a hard time understanding that you would have ever left your angelic home to come here to disguise yourself as a human, as a commoner, as Bob, as Pat, as Mary, as whoever you are. Dress like every one else, act like every one else.

< QuantumLeap 1 > One of the families of the Order of the Arc is the Order of Luceffa. It means "of the light, brought into multidimensional aspects." In other

words, the light, the wisdom that is now walking upon Earth as you. And this was made out to be evil or negative or fallen. So many of you have fallen into that trap, into that trap of believing that there is this being walking around trying to get your soul, trying to steal your energy. But in its core Lucifer means the Bearer of Light or, in a New Energy way of putting it, the Expansion of Consciousness. It's been an integral part of each and every one of you, and there's nothing to be afraid of.

< QuantumLeap 5 > It had been eons of time since you left the angelic realms (Order of the Arc), you came to Earth, and the representative for you in the other realms (Order of the Arc) was Metatron. But now with the changing of consciousness, with your choosing of life and choosing of your own sovereignty, this energy of Yo-ham, of you, can be right here. It's not removed, distant, unknown.

< freedom 5 > The energies associated with this are backed by the archangels. The archangels have taken kind of temporary residence right now on the New Earth. One hundred and forty-four thousand of them have all convened at the same time. Why? First time this has happened since the very creation of the Order of the Arc. Why are they all there? What are they doing? They understand right now the balance between New Earth and Old, what is happening, the dynamics. They are helping to build the bridge. They

are an arc. They are a bridge way between the two. They are helping to support and keep a balance for your withdrawals. They are there as the team that's helping to keep the energies balanced and moving for you and for your projects.

< freedom 5 > This Order of the Arc, which is comprised of all of the archangels, is actually almost recreating itself, mimicking itself as the Order of the New Earth. It's not a conspiracy. It is a support mechanism. Now, some of you in the meantime might be getting emails or information about something called the St. Germain World Trust. It's partly true. There is this investment that's been growing for a long time, but it's not gold in a bank. It is literally crystals, valuable gemstones that are in the Earth. In the Earth not necessarily to keep people from stealing it, because it really wouldn't go well if they did, but there to radiate, there to also attract interdimensional energies.

< freedom 6 > The Order of the Arc was the assembly of representatives of all of the spiritual families, including you. Each of you integral in setting up, creating, organizing the Order of the Arc. From 144,000 spiritual families they came. Many from each family, including you. There was consensus for the first time ever in creation outside of Spirit. A consensus, a recognition of soul being to soul being that had never taken place before, and a consensus

that each souled being has a spark of Spirit, each souled being has certain inalienable rights and each souled being eternal.

< freedom 6 > You came through the Order of the Arc, and in that Order of the Arc it was decided that there would be a place set up in physical reality where representatives, teachers, would go in and experience; experience life in a physical form – the deepest experience ever known to angelic beings – within their creation, living within it, part of it, carrying around the essence now known as your biology.

Living deep, deep within the creation to help understand consciousness, and to help understand energy and how it worked with consciousness. And, more than anything else, to help understand the true potentials for every souled being in creation.

< freedom 6 > And when the call came out from the House of Gabriel for those who would come to Earth, you spoke your spiritual name out loud. And so it was that a contingent of angelic beings came to this place that you now call Earth. It had no life force energy. It had no trees, no animals, but they imagined – they imagined into this rock called Earth – they imagined abundant, living, dynamic beings, and so it became. How long it took doesn't matter. And then it was time for you to go, to journey forth from this thing called the Order of the Arc. You came down to this place called Earth.

< freedom 6 > You came into Humanity now, joining with the others, the pioneers that came to this place called Earth, and immediately joining into this thing called mass consciousness. Initially, it was pure. It wasn't distorted. It wasn't in any way twisted. It was pure, the pure heart desire of the angelic beings from the Order of the Arc coming here. Humanity – and you have worn that badge ever since. You're proud of Humanity and you're ashamed of Humanity. You find great joy in Humanity, and especially now you're feeling a certain shame for Humanity, because you know you were part of creating this new species.

< Emergence 2 > Until finally there was, well, Tobias talks about it and says all the energy slowed down. I have a different take on it, just different ways of saying the same thing. I'm going to say that what happened with all these experiences outside of physical reality and time, with all these experiences that were going on with no memory, it wasn't that energy necessarily slowed down. Energy stopped serving you in the way that it had. You got out of touch, out of sync with your own energy. It stopped serving you.

< Emergence 2 > So, I guess Tobias was right. It appeared to slow down. There was a fear that it would stop altogether. There was a fear that all of creation would just collapse, go to nothing, absolute nothingness. Zero point. So this thing called the Order

of the Arc was created – and this *is* real, this isn't just a metaphor – but where all of the angelic families got together and said, “Energy is not serving us anymore. We're out of sync. Let's find the answers. Let's find out what's going on here.” So, the Earth was created and you came here.

< Emergence 7 > Somewhere along the way, with all the dynamics of creation, beautiful dynamics, energy came to kind of a standstill. You can read or watch more about this in Tobias’ Journey of the Angels, and it’s kind of a metaphor but kind of true. There was – I guess I would put it a little different – there was a big issue about consciousness and energy. You were a named being but without form, without any real adeptness at energy. You were children of consciousness, but not really attuned to now this thing that comes forth from the I Am; it’s called energy. It comes from consciousness. “What do I do with this?” Tobias tells the story that all energy and creation came to kind of a standstill. I say it a little different. I say that it was more of a question what to do with it. It wasn’t like this big bad thing happened and everything turned to molasses. It was like, “I don’t even know what to do with the molasses. What do I do? What is my relationship to energy?”

< Emergence 7 > So, this great place of Earth was created through the Order of the Arc. It is, I would say, the greatest experience/experiment in all of

creation, because it is so limited. It has so much gravity. It is so sensual, but yet it's so difficult and challenging. It's a belief that you can get lost in. Earth itself is just a belief. I'm not talking about the physical planet; I am talking about the experience here, it's just a belief. And that's why I say it's not about what you believe, it's about what you allow.
